22. Nokia 8110 (2nd generation) – Nokia 8131, also known as the N-Gage QD in North America and Nokia N-Gage XE in Europe and Australasia, was a third generation games console which was released in 2005 and was marketed as a cellular phone.

It was launched in Europe on November 12, 2005, in the United States it was marketed as the Nokia N-Gage QD and was released on May 4, 2006, in Japan it was marketed as the Nokia N-Gage XE. It was discontinued on June 10, 2006, in the United Kingdom it was marketed as Nokia N-Gage. The N-Gage XE was released in the United Kingdom on May 4, 2006, although it was released in PAL territories in October 2005, it was not launched in North America until May 2006, and in Japan until July 2006. Similar to the previous N-Gage devices, the games were synchronized with the devices internal clock, although there was no external interface to synchronize the games, the games could be synchronized manually. The touch sensitive Nokia N-Gage QD and N-Gage XE were compatible with the previously released Nokia N-Gage games and could be used to play the games on their own. A stand was available for use with the games. Game demos were available in a number of European cities in the first week of availability, some of which were found to have been hacked and pirated games. In the United States, N-Gage games were available as a bundle with the Nokia 6210 Communicator. In Australia, the N-Gage QD was rebranded as the Nokia N-Gage XE, the games were launched in the United States on May 4, 2006. The Nokia N-Gage was first announced in June 2005. The N-Gage was intended to be a games console with games, running on Java software. Its interface was designed to work with a game controller. It was released in North America on July 17, 2006. The games were synchronized with the phones internal clock, although there was no external interface to synchronize the games, the games could be synchronized manually. The N-Gage was made available in many countries, including the United States and Japan. Some versions of the N-Gage were sold in Taiwan. The N-Gage was discontinued on June 10, 2006, a second generation N-Gage was released, though 82157476af
