If you want to use more features, such as customization of colors and sizes for the charts, you can upgrade to the license version at \$20.95. XPlotter Downloads Please share this page with any friends and colleagues who might find it useful: If you find this page useful and shareable, please give it a "Karma" by giving it a 5 rating or higher in the app Store. It is one of the criteria to help us become Featured in the app store. Please enable JavaScript to view the comments powered by Disqus. DisqusWith respect to the "rub" or "paint" you mention in your "How to find the right kid for your herd" article, if you think I am correct, be careful. M.P.B. treats growth but produces results that last until a subsequent shot. That's fine if you need protection from the black marks that occur. If, on the other hand, you want results that show where you have a tough time having a growth mark take place, you need to look at a different growth provider. This is not to
